Product Highlights

Smart Picture provides the option of selecting one of four preset positions (Soft, Natural, Rich, Personal) to enhance enjoyment of video games, sports and movies. Select the desired option and all important picture elements are instantly adjusted to optimize viewing pleasure.

Smart Sound provides the option of selecting one of four preset positions (Theatre, Music, Voice, Normal) to optimize each individual sound preference when viewing different programmes or sources.

Power Chip boasts of a Philips BIMOS Picture Improvement Circuitry which provides better contrast, good colour transience, accurate colour reproduction and optimum sharpness for improved picture quality.

Personal Preference allows the viewer to personally select and program different picture settings and sound volume level combinations for 13 different RF channels and 1 AV channel. This is to cater to the different transmission signal conditions of various broadcasting stations.

Sleep Timer automatically turns off the TV at a preset time of up to 120 minutes from the time the feature is activated. Sleep timer settings are programmed in 15-minute intervals.
